

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

\* \* \* \* \*

In the Matter of:

APPLICATION OF TRI-VILLAGE )  
WATER DISTRICT FOR AN ADJUSTMENT )  
OF RATES PURSUANT TO THE ) CASE NO. 8834  
ALTERNATIVE PROCEDURE FOR SMALL )  
UTILITIES )

O R D E R

IT IS ORDERED that Tri-Village Water District shall file the original and 8 copies of the following information with the Commission by September 16, 1983:

(1) The billing analysis filed by Tri-Village shows metered sales during the 12-month period ending December 31, 1982, of 53,976,000 gallons. The 1982 annual report shows metered sales during the same time period of 65,177,320 gallons. Please reconcile this difference.

(2) The present Tri-Village tariff provides for a \$.25 fire hydrant rate to be charged to customers whose premises are located within 500 feet of a fire hydrant. How many customers were billed the fire hydrant rate during the test year? How much revenue was generated from this rate? Is this revenue included in the \$145,505 revenue from metered sales shown in the 1982 annual report?

(3) Is the bulk sales figure of 4,833,500 gallons shown in the billing analysis and annual report correct?

(4) The statement of water purchases filed by Tri-Village shows 74,420,800 gallons purchased during the test year. Metered and bulk sales shown on the billing analysis total 58,810,100 resulting in line loss of 15,610,700 gallons or 21 percent. Do you agree with this calculation? If not, explain.

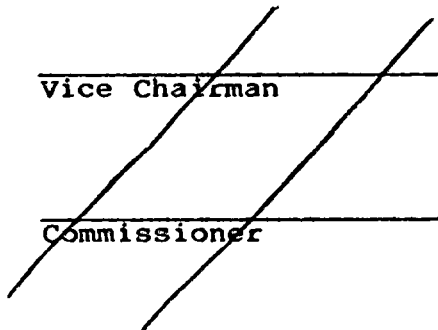

IT IS FURTHER ORDERED that in the event the above information is not timely filed, the Commission may dismiss the case without prejudice absent a Motion for Extension of Time for good cause.

Done at Frankfort, Kentucky, this 9th day of September, 1983.
